5•6**More Multiplication**

Multiply using the partial-products algorithm. Show your work.

1. $582 * 7 = \underline{\hspace{2cm}}$

2. $56 * 30 = \underline{\hspace{2cm}}$

3. $42 * 50 = \underline{\hspace{2cm}}$

4. $\underline{\hspace{2cm}} = 27 * 18$

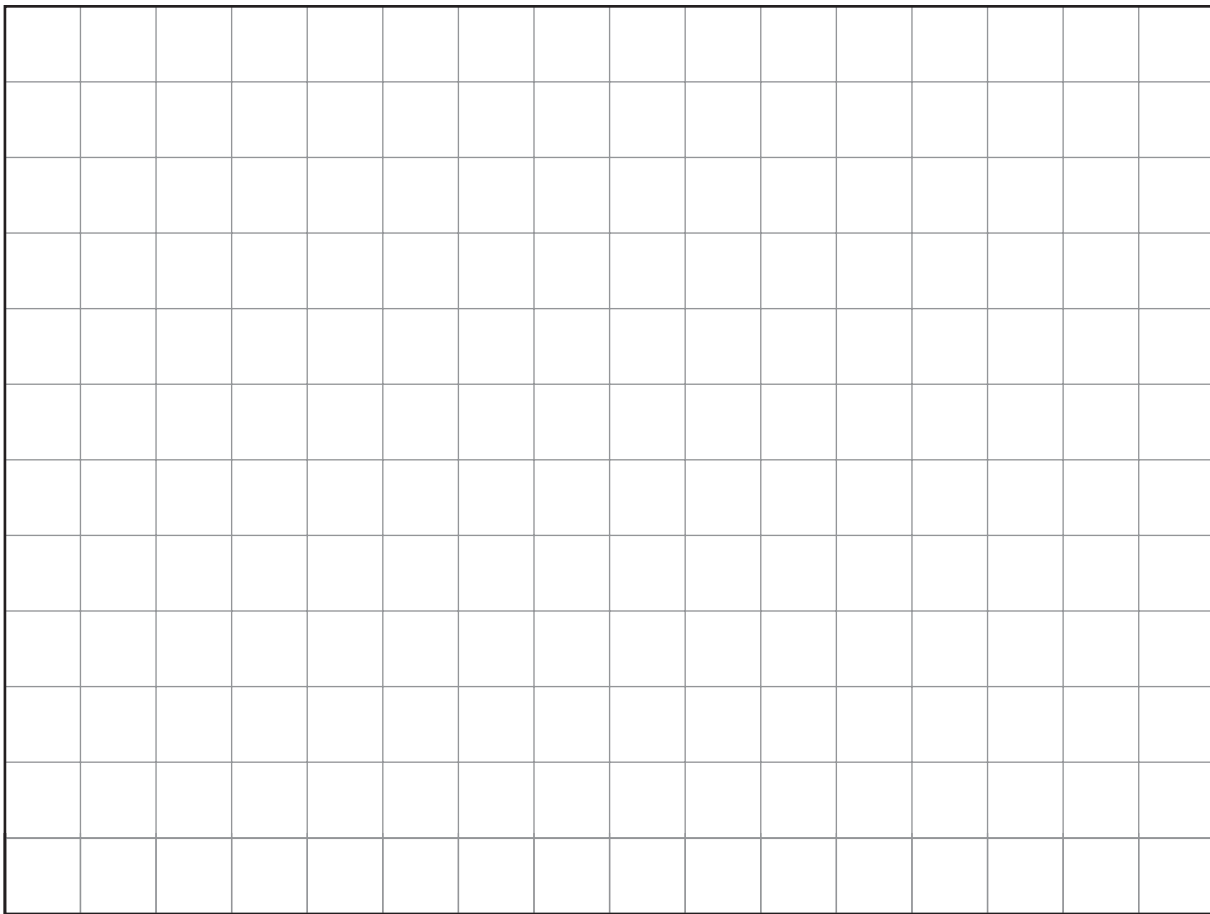

5. $\underline{\hspace{2cm}} = 46 * 71$

6. $340 * 50 = \underline{\hspace{2cm}}$

Try This

7. $\underline{\hspace{2cm}} = 241 * 31$

8. $\underline{\hspace{2cm}} = 768 * 49$

**Practice**

9. $\underline{\hspace{2cm}} = 283 + 5,439$

10. $6,473 + 4,278 = \underline{\hspace{2cm}}$

11. $5,583 - 4,667 = \underline{\hspace{2cm}}$

12. $\underline{\hspace{2cm}} = 9,141 - 6,372$
