

1. Use your calculator to rename each fraction below as a decimal.

$\frac{1}{2}$	0 . 5						
$\frac{1}{3}$	0 . 3	3	3	3	3	3	3
$\frac{1}{4}$							
$\frac{1}{5}$							
$\frac{1}{6}$							
$\frac{1}{7}$							
$\frac{1}{8}$							
$\frac{1}{9}$							
$\frac{1}{10}$							
$\frac{1}{11}$							
$\frac{1}{12}$							
$\frac{1}{13}$							

$\frac{1}{14}$							
$\frac{1}{15}$							
$\frac{1}{16}$							
$\frac{1}{17}$							
$\frac{1}{18}$							
$\frac{1}{19}$							
$\frac{1}{20}$							
$\frac{1}{21}$							
$\frac{1}{22}$							
$\frac{1}{23}$							
$\frac{1}{24}$							
$\frac{1}{25}$							

2. Make up some of your own.

$\frac{1}{73}$	0 . 0	1	3	6	9	8	
$\frac{1}{}$							
$\frac{1}{}$							

$\frac{1}{}$							
$\frac{1}{}$							
$\frac{1}{}$							

Practice

3. $6\overline{)96} = \underline{\hspace{2cm}}$

4. $91 / 5 = \underline{\hspace{2cm}}$

5. $\underline{\hspace{2cm}} = 864 \div 8$

6. $575 \div 7 = \underline{\hspace{2cm}}$
