# Properties of Geometric Figures

Write the letter or letters that match each statement.

- These are polygons. \_\_\_\_\_
- These are regular polygons. \_\_\_\_\_
- These are quadrangles. \_\_\_\_\_
- These are concave. \_\_\_\_\_
- These are NOT parallelograms. \_\_\_\_\_
- These do NOT have any right angles or angles whose measures are larger than a right angle. \_\_\_\_\_

**Try This**

- Take a paper clip and two pencils. Create a homemade compass. You may not bend or break the paper clip. How many different size circles can you make with it? \_\_\_\_\_

**Practice**

- $30 + 50 =$  \_\_\_\_\_
- $40 + 60 =$  \_\_\_\_\_
- $250 + 140 =$  \_\_\_\_\_
- \_\_\_\_\_  $= 80 - 20$
- \_\_\_\_\_  $= 120 - 70$
- $460 - 230 =$  \_\_\_\_\_
